Dear Mr. Eastep:

The Bay Area Air Quality Management District is issuing a minor revision to the Major Facility Review permit for your facility.

The purpose of this minor revision is to revise the Title V permit to reflect permit modifications that were previously approved under the following New Source Review application 27954:

The purpose of this application was to increase the maximum allowable gas oil throughput at the Unicracker complex by 4,000 barrels per day. The complex is composed of the following sources:

S307 U240 Unicracking Unit 240
S434 U246 High Pressure Reactor Train

The EPA comment period ended on November 28, 2018. The District did not receive any comments on the proposed minor revision from EPA or ARB.

A copy of the final revised Major Facility Review Permit is enclosed. If you have any questions regarding this proposed permit revision, please contact Carol Lee, Supervising Air Quality Engineer, by telephone (415) 749-4689, fax (415) 749-5030, or email clee@baaqmd.gov.

Sincerely,

Signed by Pamela J. Leong
Pamela J. Leong
Director of Engineering
